FOR PRESIDENT.

JAMES A. GARFIELD

Of Ohio.

FOR VICE PRESIDENT,

CHESTER A. ARTHUR

Of New York.

#### THE STATE.

The Democrats have been bosting that they would come to the Sink of the Humboldt with 700 majority for Hancock. Even if they did the Republican counties of the West would be able to offset it. We have information from the Great East, which we consider p r. fectly reliable and trustworthey, that the Republicans of the Great East are so enthusiastic and so well organized that it will be out of the question for Hancock to come to the Sink with over 300 majority. Knowing this the Democrats are moving heaven and earth to carry Storey. This they must do in order to have any show for the electoral vote. We caution the Republicans against being too sanguine; we arge them not to be apathetic. It is of the first consideration that the vote of Nevada should be given to Garfield, for these three votes may turn the scale, and a Republican President is absolutely necessary as a check upon a Democratic Congress. Be sure that every Republican is on the register and January 1. Governor Wiltz, in a letter that his vote is east on election day, and victory will be assured.

#### FAIR'S RESIDENCE.

It would place the Democratic party and their candidate for Senator in rather an awkward position should the San Francisco courts decide Mr. Fair to be a resident of the State of California. The point has been raised in the case of John H. Burke vs. the Bonanza firm. A San Francisco dispatch of yesterday reads as follows:

In the case of John H. Burke vs. the Bonauza firm, the order to show just cause why he should not be punished for contempt, in not testifying before Justice Knox. came up to-day. Fair's connsel claimed he was not a resident of the State of California, while counsel for plaintiff alleged that he was, with his family, a resident of San Francisco. The Court took the question of residence under consideration, and continned the case.

The sky at night during this mouth is very beautiful. The planets appear very large. Jupiter is near to the earth, and will not appear so large again during our decade. He is almost at his nearest point to our world. The able astronomer of the Providence Journal mentions western snows, malaria and large meteors as incidents that may have something to do with the nearness of Jupiter to the earth and the sun Saturn, too, is comparatively near the earth, but his brightness is not so conspicuous as it would be if Jupiter were not his great rival. Both planets are moving south. Meteors and northern lights may now be looked for.

Bradstreet's Journal of Trade estimates, from wheat growing returns to the 25th of September, that this year the total outturn of American wheat will not exceed 465,691,000 bushels, and probably will prove 10,000,000 bushels less. The California and Oregon outturn is estimated at 38,000,000 bushels The requirement for home consumption from this season's crop is placed at 261,000,000 bushels, leaving 184,000,000 bushels sarplus. California and Oregon are credited with 28,000,000 surplus for export.

It is proposed to found in connection 1880. with the new national museum a national zoological garden similar to those in London and Paris. The nucleus of the proposed collection will be a cage of American snakes now in the Smithsonian Institution, where they are used in taking life casts in plaster.

The gross earnings of the thirty-four principal railroads for the month of September, amounted to \$15,365,964, against \$12,551,557 for the same month last year, an increase of \$2,814,307, or 22 per cent. The increase of mileage is 5,573 miles, or 23 per cent.

The business men of Chicago have issued a strong appeal to business men. mechanics and manufacturers to stand by the Republican party. The circular charges the Democracy of being "the party of repudiation and dishonor."

#### Some of Conkling's Eloquent Sayings.

Among the gems of Conkling's speech at the battle ground near Lafayette. Indiana, were the following: Thomas Jefferson shielded Indiana from the curse of slavery; a curse never satisfied with less than three victories. The man the master and the land. Free locomotion is guaranteed by the Constitution, and the excdus of Southern negroes will continuous long as they are oppressed. We in New York want the tonic of a Republican majority in Indiana. All our eggs are in your basket. We are all in your boat. You must tell the men of the South that an invitation to ride is not a license to drive. If you want to vote to bring in a new balance of power, to sail out on a shoreless sea. vote for that respected-but by no means great man-the head of the Democratic

MUST SPEAK OUR LANGUAGE .-- Judge Rising of Storey yesterday made a raling in cases of application for citizenship which is important, says the Gold Hill News. Several persons applied who could not speak a word of English. They were refused their papers for that reason, the Julge remarking that if they had been here long enough to apply for admission to citizenship (in some cases in point from six to eight years) and could not speak our language, they could not be disposed to the well-being of our government. #### HON. W. H. CLAGGETT.

[Gold Hill News ]

The visit of our old friend, Hon. W. H. Claggett, to the Comstock, after an absence of fifteen years in Montana and Dakota, calls to mind the memorable struggle when he was a candidate for Congress before the State Convention in lous. The convention was held in Carson City and was composed of 105 members, James Slingerland was Chairman sissippi plan" of running elections in The candidates for Congress were W. H. Indiana. The attempt to buildoze a Chargett, Charles A. Sumner and D. B. Ramblican meeting in Shalbasvill. Republican meeting in Shelbysville was mated and received one vote. Storey stoutly resisted, and the Democratic county had thirty-six delegates, who roughs got more than they bargained stood solid for Chargett. On the second be fooled with that way. The coquetting proved tatal to Claggett's nomination, for with the change other delegations went to Ashley, and in the excitement that followed Ashley received a majority of the votes and was declared the nominee of the Convention. How vividly all this ts called to mind when, after fifteen years, we meet and converse with the ectors of that scene. BANK OF ENGLAND NOTES .- The London City Press, remarking upon the amount of labor and ingennity expended upon the production of Bank of England notes, states that they are still made, as for generations past, from pure white linen cuttings only-never from rags that have been worn-and, so carfully is the paper prepared, that even the number of dips unto the pulp made by each workman is registered on a dial by machinery, and the sheets are person through whose hands they pass. The printing is done by a most curious process—secret, of course—within the bank building; there is also an elaborate arrangement for providing that no note shall be exactly like any other in existence, consequently there never was George Q. #### Rather Short.

There is something wrong somewhere. There are now 900 names on the register, and at least 100 more to go on. We know there are nearly 1,000 children in the town, and at least that many women. And yet the census takers only reported the population of the town 2.342.

#### Unsafe.

The attention of the Road Supervisor is called to the fact that there are two bridges-the one over the Hatch ditch, and the one over the Frey ditch-unsafe for travel, and we caution persons traveling on the road between Reno and Mayberry's.

MUST HAVE ROOM .- Sol Levy will sell his entire new and immense stock of dry goods, carpets and fancy goods at clearance sale prices, for the sake of making room. This is no idle assertion -his store is too small for his present stock and no sacrifice will be considered too great to dispose of the goods; now is the time to make your one dollar worth two dollars.

No larger stock of carpets and lace curtains can be found in this State than Sol Levy has, and judging from the prices at which he offers them he means to sell them all in a day.
